Risks

Guinness Global Quality Mid Cap Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. For full information on the risks, please refer to the Prospectus, Supplement, and KID/KIID for the Fund, which are available on our website.

Source: FE fundinfo net of fees to 30.09.25. Until 1 January 2025 the MSCI World Index was the benchmark for the Fund. All figures shown here are based on the new benchmark, the MSCI World Mid Cap Index which is considered more suitable for comparative purposes given the Fund's mid cap focus. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The OCF used for the Fund performance returns is 1.99%, which was the OCF over the calendar year 2024. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return. Graph data is in USD.

Fund Profile

Aim

Long-term capital appreciation

Investment Case

The fund invests in quality mid cap companies with exposure to sustainability growth themes such as improved health and wellbeing, resource management, and innovative technologies.

Process

The Fund focuses on profitable companies with persistently high or increasing return on capital. We exclude companies with controversial products and services and those with inferior management of ESG issues, and select companies aligned to our sustainability themes. We look for companies that can grow profitably without the need for significant external capital, and we aim to avoid over-paying for future growth.

Portfolio

Concentrated, broadly equally weighted portfolio of 30 stocks, which reduces stock-specific risk and instils a strong sell discipline. Low turnover; minimum \$500m market cap; no benchmark-driven constraints on sector and regional weightings.

Investment Objective

An equity fund seeking capital appreciation by investing in global mid cap companies with exposure to sustainability growth themes.

The Fund is actively managed and uses the MSCI World Mid Cap Index as a comparator benchmark only.

For the avoidance of doubt, if you decide to invest, you will be buying units/shares in the Fund and will not be investing directly in the underlying assets of the Fund.
