Reporting status	Yes
Pricing	Daily, forwards
Valuation	2300 Dublin time
Year end	31 December
Custodian	Brown Brothers Harriman
Investment Adviser	RBC Brewin Dolphin

POWERED BY

Brewin
Dolphin

Risks

Guinness Multi-Asset Growth Fund is a multi-asset fund investing primarily in other funds ("Underlying Funds") which themselves may invest in equities, Government Bonds, fixed interest securities (which may include sub-investment grade securities), property and other investments. Investors should be willing and able to assume the risks of equity investing. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement, and you may not get back the amount originally invested. Further details on the risk factors are included in the Fund's documentation, available on our website.

Performance

Source: FE fundinfo 31.12.22. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF for the share class used for the fund performance returns is 1.98%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return.

Performance Since Launch in GBP (%) - Past performance does not predict future returns

Performance (to Month End) - Past performance does not predict future returns

Market Commentary

2022 was a very difficult year for investors. The world was buffeted by economic and geopolitical shocks, which created very challenging conditions for investment. At the beginning of the year, concern was rife about the new more transmissible variant of Covid. As concern ebbed over the Omicron variant, fears rose over rising levels of inflation.

While most investors and policymakers went into 2022 expecting a return of inflation, few foresaw just how sharply and persistently prices would rise. The Fed, expected to raise rates by less than 1% by the end of the year, but ended up hiking by more than 4% in what was, arguably, the most aggressive interest rate hiking cycle on record.

Inflation was more persistent than expected, and therefore interest rates rose by more than expected. This meant bonds were worth less and the growth of company profits was generally outweighed by falling valuations in the equity market.

Consumers and the markets also had to contend with Russia's invasion of the Ukraine which, humanitarian impact aside, impacted global energy supply and the economic costs were material. Whilst in Asia, the zero tolerance Covid policy and disruption in the property market impacted China's economic growth.

Against this backdrop, it's unsurprising that equity markets fell with the MSCI World down 18% and global bond markets also falling circa 18% (in USD). Of the major equity markets the UK market was the standout performer driven by its energy and value style bias. Growth significantly underperformed value falling 29% against 7% for value (as measured by MSCI World Indices in USD).

Over the year the funds overweight positions in Cash and Absolute Return were tailwinds for performance. Digging deeper, the value style bias of the SPDR US Dividend Aristocrats was the clear positive contributor whilst the economic and political backdrop adversely favoured the Invesco Nasdaq 100 and China CSI 300 funds.

Fund Profile

Investment Objective

The investment objective is to provide capital appreciation over the long term. Returns will be generated through both capital growth and income, with a bias towards developed and liquid capital markets. The risk will be diversified by holding collective investments in a range of asset classes and geographies. The management of the portfolio aims to meet the objective conservatively by taking managed risk through fund selection and asset allocation. The portfolio is based on the Brewin Dolphin International MPS Passive Plus Growth Strategy.

Investment Policy

The Fund is actively managed without reference to a benchmark. The Fund invests in funds in a range of different asset classes.

ABOUT BREWIN DOLPHIN

RBC Brewin Dolphin are one of the UK's leading providers of discretionary wealth management services and can trace our origins back to 1762. They offer award winning personalised wealth management services to achieve the varied investment needs of individuals, companies, charities, pension funds and trusts, which meet personal and professional ambitions and aspirations. Their network of over 30 offices across the UK, Channel Islands and Ireland are staffed by highly qualified and experienced Investment Managers and support staff. They manage approximately £59.0 Billion (as at Dec 2021) of clients' funds. The investment proposition is driven by an award-winning research team which undertakes research across markets, asset classes and individual companies.
