Risk Warning

Capital is at risk. The value and income from investments can go down as well as up and are not guaranteed. An investor may get back significantly less than they invest.

Past performance is not a reliable indicator of current or future performance and should not be the sole factor considered when selecting funds.

The fund invests for the long-term and may not be appropriate for investors who plan to take money out within five years.

Tax treatment depends on individual circumstances and may change in the future.

As the Fund invests into other Collective Investment Vehicles, the Fund will also be subject to specific risks associated with its investment into such Collective Investment Vehicles as well as specific risks incurred at the level of the Collective Investment Vehicles and their investments. If the Collective Investment Vehicles invest in a particular asset category, investment strategy or financial or economic market, the Fund will then be exposed to fluctuations in value of such investments resulting from the performance of that particular asset category, investment strategy or financial or economic market.
