# INTRODUCTION

London Diamond and Emerald Fine Jewellery is a City of London-based jewellery company that takes pride in providing clients with sustainably sourced and beautifully crafted jewellery.

All of our pieces are handmade, hallmarked, and crafted to suit your wishes.

As proud members of the Responsible Jewellery Council and the National Association of Jewellers, we have the expertise to make jewellery that is both elegant and ethical.

We draw on the knowledge, skills and experience of our team to engage with our customers in a professional and consultative manner in order to deliver the highest standards of service and aftercare.

# ABOUT US

Phil Spencer  
FOUNDER AND MANAGING DIRECTOR

I founded London DE in 2013 from a life long passion for gemstones and jewellery and a desire to build a sustainable, ethically focused business from the ground up.

Over the past 8 years we have won multiple business and industry awards and grown apace, opening offices in Bogotá and Dubai.

Our unique mine-to-market approach ensures the ethical integrity of the end product whilst increasing the value of money we can deliver.

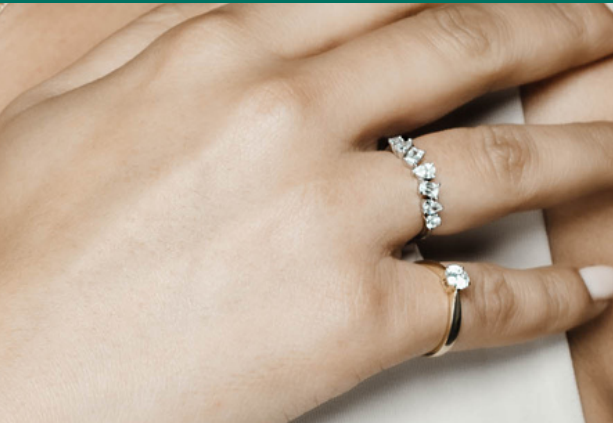

"It's my promise that every London DE piece of jewellery is responsibly sourced and beautifully crafted."

A handwritten signature in black ink, appearing to read 'Phil Spencer', with a long, sweeping underline that extends to the right.

# ETHICS AND ENVIRONMENT

We carefully monitor the entire length of our supply chain and only work with partners who have a detailed policy relating to their own supply chains. As proud members of the Responsible Jewellery Council and the National Association of Jewellers, we work hard to ensure that we operate in an ethical and considerate fashion.

We have paperless offices and we have taken steps to minimise our carbon footprint by working with local businesses and workshops in London to minimise journey distance. Where possible, we produce our finished products as close to source as possible.

We operate a workshop in Bogotá, Colombia, employing local craftspeople on a fair and equitable basis.

## BESPOKE JEWELLERY

Whether it's a bespoke engagement ring, bespoke wedding rings, or a handmade piece of jewellery to mark a special occasion. Bespoke jewellery is timeless, romantic and often passed down for generations to come.

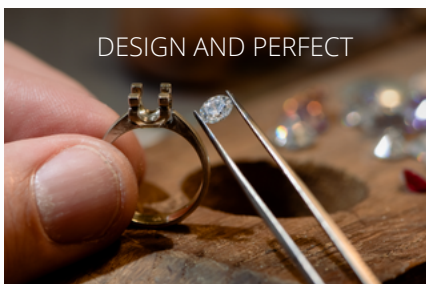

1

DISCUSS YOUR IDEAS

It all begins with your initial inspiration! Many people look for ideas on social media and online, giving them a starting point. We can then produce an initial quotation from this, tailored to your individual budget and requirements.

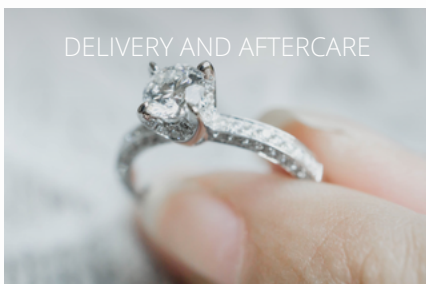

2

DESIGN AND PERFECT

Once we have agreed an initial outline, we will set to work on the detailed design of your piece. We will work with you to fine tune your initial ideas, in the form of CAD (Computer Aided Designs) of the finished item. We can spend as long as you wish on this stage and we do not proceed until you are entirely ready. It is at this point that we take a deposit and commence the creation of your jewellery.

3

DELIVERY AND AFTERCARE

This is where you can relax and leave the hard work to our specialist craftspeople! This stage typically takes around 3-4 weeks, after which your jewellery will be securely delivered to your chosen address. We offer unparalleled aftercare, including a lifetime guarantee, free resizing, and polishing.

## BESPOKE JEWELLERY

Designing a bespoke jewellery piece is highly personal and inimitable, giving you the freedom to transform your dreams and ideas into real heirloom pieces you'll treasure forever.

Whether you're looking for a bespoke engagement ring or a piece of heirloom jewellery, with our 5-star rating and unrivalled expertise in crafting responsibly sourced and beautifully crafted jewellery, you can be confident we will bring your unique vision to life.

When you craft a piece of bespoke handmade jewellery at London DE you'll have the freedom to choose any metal, diamond or gemstone you desire in any combination and it can be engraved and set in any way you wish.

Choose from an in-person consultation at our Hatton Garden Studio or opt for a virtual appointment.

# COLOMBIAN GEMSTONES

Some of the oldest natural emeralds are nearly 3 billion years old, and for centuries they've remained one of nature's most sought-after gemstones.

At London DE we hand source the finest Colombian emeralds through our own subsidiary in Bogotá, Colombia, where the most desired emeralds are harvested.

Colombia produces the majority of the world's fine emeralds and is widely regarded as the country of origin for the finest specimen.

Our Colombian subsidiary, London DE SAS, is based in the heart of the emerald district of Bogotá to ensure we're buying our stones and materials from the top of the supply chain and know exactly where our materials are sourced from.

This arrangement enables us to ensure the ethical integrity of our entire supply-line, whilst also cutting out the middlemen and reducing the cost of manufacture.

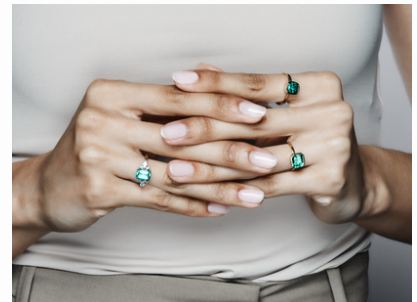

This means that we can deliver gemstones and jewellery at a price well below that of traditional high street retailers whilst ensuring that we employ local craftspeople on a fair and equitable basis.

# Responsibly Sourced, Beautifully Crafted

## COLOMBIAN TOUR

Our Colombian team in Bogotá, Colombia are delighted to offer a unique in-person experience to witness emeralds being transported from mine to market.

When visiting, you'll learn all about precious stones and their history in Colombia and why they are loved around the world.

### WHAT TO EXPECT

Learn all about precious stones at the famous Emerald Museum in Bogotá's centre, before taking a stroll down Emerald Street to witness the city's most remarkable graffiti murals.

After that, hear about the history of emeralds and their use in the wonderfully constructed monstrances. then visit the bustling picturesque Rosario square and experience informal Colombian emerald trade selling first-hand.

At the end of the tour head to the Emerald Trade Centre to learn how to identify emeralds, before enjoying a Colombian coffee at the London DE workshop.
