The Market and the Company

Background

The Company incorporated in January 2023, and was developed by the Directors of 79th Luxury Living Ltd which was established in May 2017, to identify and deliver residential and commercial schemes predominately in the North of England.

The team has a wealth of development and property management experience spanning 30 years. Having built a significant network of sourcing avenues over that time, this has resulted in a future pipeline of circa £25m worth of development with regular opportunities being presented to the Board of Directors.

Strategy

The Directors of the Company are very experienced in obtaining significant discounts on property sales by capitalising on distressed and quick turnaround sales and have a proven track record with numerous relationships such as Estate Agents, Law of Property Act Receivers, Accountants, Law Firms and a network of blue chip housebuilders that seek to reduce stock levels. The Company thrives during periods of economic uncertainty, such as the recent pandemic, and the Company conduct significant due diligence on each opportunity prior to commitment.

The purchase strategy is to acquire buildings that they have the opportunity to significantly improve the value, but at the very least with an immediate uplift in equity value with solvent ownership.

The purpose is for short term stockholding and quick realisation of profit. The properties that are acquired have to meet at least one of the following criteria, but most will fit several:

- Opportunity to add value by way of redeveloping on the site by extension or rebuilding. This is likely to be by way of obtaining planning permission for future development and the property is then resold with equity uplift and the benefit of planning permission;
- Low level refurbishment and resold with solvent equity uplift;
- Opportunity to develop or improve new or existing revenue streams, e.g. improve leases currently in place or create new rental streams.

The Company is of the opinion that there is sufficient uncertainty in the market as a result of current economic and political conditions for the Company to capitalise on.

The Company is expecting to exchange contracts on a number of developments in the UK which have scope for the renovation and sale in areas of high demand.

These attractive developments have garnered local interest and support, and will be managed by an experienced commercial and contractual team with expertise in this type of development.

Use of Proceeds

Proceeds raised from the issue of Loan Notes will be used to fund the costs associated with the acquisition of multiple sites, including renovation costs.

Marketing & Professional Fees

The Company will engage professional advisory firms along with marketing and wealth management companies to undertake the marketing and advertising of the Loan Notes. Commissions for these services are variable and will be payable from the proceeds raised from the issue of the Loan Notes. A maximum of 20% of the proceeds raised from the Loan Note issue will be used for marketing purposes.

Company Structure

The issued share capital of 79th Commercial Three Limited is 100 Ordinary Share of £1.00 each, of which is fully paid up to the sum of £100.00. The issued shares are held by The 79TH GRP Limited the ultimate beneficial owners are Jake Webster, David Webster and Curtis Webster.

Security

The investment is secured by way of a debenture over the Company.

In addition, the Directors are of the opinion that, having made due and careful consideration, the working capital available to the Company will be sufficient for its requirements that is for at least the next 12 months from the date of this Information Memorandum.

Security Trustee

The Security Trustee shall not be responsible, nor shall face any liability, for any loss incurred by the Loan Note holders relating to a failure of the Company to make payments (whether of interest or of the principal amount) to the Loan Note holders when due. The Security Trustee cannot guarantee return of any monies in the event of default. **Note also that the Security Trustee has no role in the day to day management of the Company.**

The Security Trustee shall not accept any responsibility for, or be liable for, the adequacy, accuracy or completeness of any information (whether relating to the financial condition or tax status of the Company or otherwise) supplied by the Company and contained in this document. The Security Trustee shall have no obligation to, and does not undertake to, make any investigations into the financial condition of the Company at any time at which any of the Loan Notes are outstanding.

The Security Trustee shall have no duty to advise any Loan Note holder of any information (whether financial or otherwise) relating to the Company which may come to its attention at any time at which any of the Loan Notes are outstanding.

The Security Trustee is reliant upon the Company for providing it with information in respect of the Holders and the Register of Holders as per the terms of the Security Trustee Agreement. Should the Company fail to correctly advise the Security Trustee of the Holders' details, including updated details, then the Security Trustee may not have the correct Register of Holders. **The Security Trustee will not enter into correspondence with individual Loan Note holders at any time.**

Risk Factors

The risks described below are those risks that the Directors of the Company consider at the date of this document to be material to a decision as to whether to make an investment in the Loan Notes but are not the only risks relating to the Company or the Loan Notes.

If any of the following risks, as well as other risks and uncertainties that are not herein identified or that the Company does not consider to be material at the date of this document, were to occur, then these could have a material adverse effect on the Company's ability to fulfil their obligations to pay interest, principal or other amounts in connection with the Loan Notes

Potential Investors are strongly advised to consult their stockbroker, bank, solicitor, accountant or other financial adviser who is authorised under FSMA to advise on investments of this sort if they are in any doubt.

Risk to Capital

Invested capital is at risk and you may not get back what you invest.

The Company, like all businesses, is vulnerable to financial difficulties and investing in unlisted Loan Notes involves significant risk of default and loss of capital.

Investment in Loan Notes of this nature is speculative and involves a higher degree of risk than other types of investment. Investments of this type are not suitable for all investors.

Non-Transferable and Illiquid Investment

The Loan Notes are not transferable or negotiable on the capital markets and no application will be made for the Loan Notes to be admitted for listing or trading on any market. It will not be possible to sell or realise the Loan Notes until they are repaid by the Issuer so please ensure you are fully aware of the risks involved and that you will not be able to cash in or sell your Loan Notes before their maturity date. Prospective Investors should not submit an Application Form unless they are prepared to hold the Loan Notes for their full term. In the event of the death of a Loan Note holder or in other exceptional personal circumstances, individual Loan Note holders may be repaid early. However, any such early repayment is at the Company's discretion and subject to there being sufficient cash available at that time.

Financial Services Compensation Scheme and Regulation

Notwithstanding the involvement of one or more FCA authorised person in this Offer, please note that **this is an unregulated product**.

The compensation entitlements under the Financial Services Compensation Scheme (FSCS) **do not apply to this investment**. In the event of the Company being unable to pay either the capital or interest payments, the protections afforded by the Financial Services and Markets Act 2000 including recourse to the Financial Ombudsman Service and access to the FSCS will not apply.

Security No Guarantee of Repayment

Even though the Loan Notes are secured by way of a debenture over the Company's assets, meaning Loan Note holders rank ahead of unsecured creditors in a default situation, the Company assets have not been valued and the presence of this security does not guarantee that investors in the Loan Notes will be repaid at maturity or receive their interest payments in full. The Notes rank below employees, administrators but ahead of unsecured creditors. The Company also has the right to enter other debt arrangements, issue further Loan Notes and to grant other security over its assets provided it ranks equal to or behind the security in favour of Loan Note holders. This means that the Company's available assets may be spread around a larger group of secured creditors in a default or insolvency situation resulting in less being available to satisfy the claims of Note holders.

Fixed Interest Rate and Inflation

The Loan Note attract a fixed rate of interest and as such will not benefit from any subsequent increases in market interest rates. Accordingly, you should note that a rise in interest rates may adversely affect the relative returns that the Loan Notes offer. Further, inflation may reduce the real value of the returns over time.

No Right to Participate in Management or Profits Beyond Fixed Return

Loan Notes are a very different kind of investment to equity shares and Investors do not own a stake or have any right to participate in management of the Company. As such Loan Note holders will not be in a position to object to particular strategies or decisions of the Company's directors.

Security Trustee

Whilst the security in favour of Loan Note holders is held on their behalf by a Security Trustee, the Security Trustee shall not be responsible, nor shall face any liability, for any loss incurred by the Loan Note holders relating to a failure of the Company to make payments (whether of interest or of the principal amount) to the Loan Note holders when due. The Security Trustee will not have any ability or responsibility to protect any monies in the accounts of the Company which may have been set aside for payment of interest or the principal amount in respect of the Loan Notes. The Security Trustee cannot guarantee return of any monies in the event of default. **The Security Trustee has no role in the day to day management of the Company and its personnel are not experts in the Company's business.** Accordingly, in the event that the security is enforced, there can be no guarantee that it will be possible to realise the assets for the same value as stated in the IM (or realise them at all in some cases).

Cancellation Rights

Investors will have seven (7) working days from the date they sign the application form to cancel an application to subscribe for Loan Notes. Investors should review the term and conditions of application carefully and seek professional advice from financial intermediaries authorised under FSMA to advise on investments of this type.

Risks Relating to the Company

Investments in this type of Company carry particular risks over and above the general risk of unquoted debt investment described above. Investors are reminded that there is no guarantee that the Company's strategy or trading activities will be successful and that their investment is consequently at risk.

Performance Risk

The Company may not perform as well as expected and may even fail completely. Investors are reminded that any financial forecasts included in this document are hypothetical projections only. Projected results have many inherent limitations and there are frequently sharp differences between such projections and the actual results subsequently achieved. The Company cannot make any representation or warranty as to what the actual results will be and has provided its projections by way of illustration only.

Personnel

The Company's performance is dependent on the continued services and performance of members of its board, management team, operational employees and professional advisers. If the Company does not succeed in retaining skilled personnel, fails to maintain the skills of its personnel or is unable to continue to attract and retain all personnel necessary for the development and operation of its business, it may not be able to grow its business as anticipated or meet its financial objectives including the servicing, and ultimately the redemption, of the Loan Notes.

Regulatory Risk

Changes to existing laws or regulations or the creation of new laws or regulations may have an adverse effect on the Company's business and could result in the Company failing to generate sufficient returns to service the Loan Notes or redeem them in full (or at all).

Operational Risk

Operational factors may disrupt the Company's activities and result in increased internal costs, project delays, aborted projects and/or project cost increases. These risks may be related to and not limited to:

- The capacity of the staff and systems to develop sites and subsequently sell them.
- The ability to source land acquisition opportunities and generate value.
- The ability to retain key members of the Management Team (see 'Personnel' below).
- Failure to satisfy contract conditions, budget cost overruns and losses.

If one or more of these risks were to occur, the Company may not generate sufficient returns to service the Loan Notes or redeem them in full (or at all).

Property Market Risks

Fluctuations in the property market could affect the value of property purchased through bridging finance and joint venture agreements. Any negative fluctuations in the property market could affect the performance of the Company and its ability to repay Loan Note holders.

Other Risks and Considerations

Diversified Portfolio

Investors are reminded to maintain a balanced portfolio. Diversification by spreading your money across different types of investments should reduce your overall risk. Investors should only invest a small proportion of their available investment funds via this Offer (and others like it) due to the high risks involved.

Taxation Risks

The statements in this document regarding taxation only represent the Company's understanding of the current law and practice as regards the taxation of the Loan Notes. Nothing in this document should be considered tax or legal advice and prospective Investors are recommended to seek their own independent advice before investing. The tax legislation referred to herein may change in the future and such changes may have retrospective effect. Investors are reminded that any future legislation regarding taxation could also have an adverse effect on the Company's profitability.

Individual tax circumstances may differ from Investor to Investor and persons wanting to invest are advised to seek specific tax advice based on their personal circumstances.

In addition, Investors should not place undue reliance on "forward-looking statements," which speak only as of the date of this Information Memorandum.

Tax

Investors are advised to take their own tax advice on the tax consequences of acquiring, holding and disposing of the Loan Notes.

It is possible that legislation may change in the future or may be introduced with retrospective effect.
