Domicile	Ireland
ISA eligible	Yes
Reporting status	Yes
Pricing	Daily, forwards
Valuation	2300 Dublin time
Year end	31 December
Custodian	Brown Brothers Harriman

Risks

Guinness Global Energy Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests only in companies involved in the energy sector; it is therefore susceptible to the performance of that one sector, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. Further details on the risk factors are included in the Fund's documentation, available on our website.

Source: FE fundinfo to 31.12.23. Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF for the share class used for the fund performance returns is 1.99%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return. Graph data is in USD from 31.03.08.

Performance Since Launch (USD)

Fund Profile

Aim

Long-term capital growth

Investment Case

Provides exposure to growth opportunities in energy equities. Global population growth, industrialisation and diminishing fossil fuel supplies, pushing energy prices higher, and creating a favourable environment for energy companies. Energy equities can be a long-term hedge against inflation.

Process

50% top down, 50% bottom up. Value bias in bottom-up stock selection.

Portfolio

Equities of companies in the exploration, production or distribution of oil, gas and other energy sources. Concentrated equally-weighted portfolio of 30 positions. Majority of Fund invested in stocks over \$1bn in size.

Investment Objective

An equity fund investing primarily in globally based companies principally engaged in the production, exploration or discovery, or distribution of energy derived from fossil fuels and the research and development of production of alternative energy sources.

The Fund is actively managed and uses the MSCI World Energy Index as a comparator benchmark only.

Share classes

Class	Currency	Acc/Dist	OCF	Maximum Initial Charge	ISIN	Bloomberg
