## About Urban Village

Urban Village Group is a specialist real estate developer, investor and asset management group. We source, design, construct and manage developments that minimise risk, in order to maximise returns.

The Group was founded in 2016 to focus on developments across the student, PRS and healthcare sectors.

We take a rigorous approach to risk management, to ensure we deliver appropriate risk-adjusted returns. Our ability to deliver successfully is underpinned by UV's relationships with architects and structural engineers to major banks, solicitors and property agents.

We have strong values, based on honesty, integrity and hard work, and look to benefit local communities through our developments. We retain the majority of our developments on completion, which means we are asset backed and incentivised to take a long-term view in our decision making. Over the last six years, we have delivered a portfolio to £622m, while repaying in excess of £241m to investors.

We have an attractive pipeline with a gross development value of £865 million, which ranges from projects in the early stages of planning through to construction and practical completion. We typically aim to deliver around 15 new developments each year.

## Investment Strategy

All investments are scrutinised to ensure risks are mitigated and that there is a sufficient headroom for development and a clear exit strategy in place.
