Client Statement

1. I have received, through an independent advisor, information about the selected product and I confirm that the decision to invest is mine and at my own discretion.
2. I have received the official documentation of the issuing company (Factsheets, Investment Memorandums, prospectuses) for my analysis and reference.
3. I understand that the performance projections come from the issuing company and that they are detailed in the official documents. These forward-looking statements are not guarantees of future results.
3. The Adviser provided and reviewed with me the official Tariff Sheet of the selected Company/Investment Platform.
4. I understand that this type of product may have costs, commissions, minimum contribution periods, penalties and redemption conditions established directly by the issuing company.
5. I am aware that investments can fluctuate in value and that past performance does not ensure future results.
6. I know that my contract is directly with the issuing company, and that all contributions must be made to that company. I do not hand over cash or make transfers to the adviser, as the adviser is not a custodian or intermediary of funds.
7. I understand that the investment is medium to long-term and is not suitable for the purposes of short-term speculation ("trading").
8. I understand that I need to maintain sufficient cash in the trading account to cover administration or custodian charges, the recommended percentage is 2%.
9. I confirm that my advisor has read to me, explained in detail, and completed on my behalf the Suitability and Risk Disclosure Assessment / Appropriateness Test, ensuring that I clearly understood each section prior to signing. I further confirm that I have reviewed and signed the document in full agreement, and that I understand the nature of the investment, its characteristics, and the risks involved — including the possibility of partial or total loss of the invested capital. I acknowledge that the explanations provided were sufficient, clear, and aligned with my investor profile, and that I had the opportunity to ask questions prior to confirming my acceptance.
