Interest

Your interest is variable as set out in our terms and conditions. Interest is paid daily on the balance of your Instant Access Savings at the end of each day. Interest will be calculated at the rate indicated in the Summary Box accessible on the Revolut App. Your interest rate may also vary depending on your active Revolut subscription plan. If we increase your interest rate at any other time we may do so with immediate effect; or if we decrease your interest rate, we will give you at least 14 days notice of one or more of the following reasons set out in our terms and conditions.

The interest will be calculated based on the actual number of days in the current calendar year. Interest accrues immediately following deposit into your Instant Access Savings, and is paid on the next calendar day. Interest will not be calculated and paid for the day on which money is withdrawn from your Instant Access Savings, including the day on which your Instant Access Savings is closed.

* Gross Interest - interest is paid before any income tax is deducted. It is your responsibility to determine what, if any, tax obligations you have as a result of using our services.
